

I am concerned about this issue. My family and I enjoy our local K-love radio station. Our area is not served by any other radio station offering a similar format to K-love. The people have the right to choose what music to listen to. Without K-love a large portion of that right will be removed from my family. Yes, we can still choose to listen to contemporary christian CDs, but we would not have a radio that we can enjoy. K-love unites fellow believers all across the United States. It is exciting to hear what is happening in other K-love communities. It is a positive and encourage station just as their tag-line proclaims. K-love is a very unique radio station and deserves to continue broadcasting using their current FM Translator Service. The people who enjoy and support K-love deserve to continue receiving the benefits of a Christ centered contemporary radio station.

Thank you for your attention concerning this matter.
